Fecc in a nutshell

Fecc is the voice for, inform and serve the Chemical Distribution Industry in Europe. With a membership of companies and national associations, Fecc represents around 1,600 companies of which many are small and medium sized companies (SMEs).

Fecc and its members contribute to innovation and sustainability besides adding value in the supply chain, by sourcing, developing, marketing, and distributing a wide range of specialty chemicals and ingredients to over one million downstream users ranging from automotive, electronics, paint, construction to pharmaceutical, cosmetics, food and nutrition industries, each with their own specialised needs.

🧱 1,600 companies
👩‍💼 > 30,000 employees
📈 €28 billion annual sales
Objectives

- Promote the chemical distribution industry as an added value partner in the supply chain
- Represent Fecc members’ interests at European and international level
- Ensure a sustainable business environment for distributors
- Foster cooperation with relevant sectors in the chemical supply chain
- Support members to manage digital transformation and facilitate international trade
- Drive Responsible Care and Sustainable Development
- Develop and promote Good Distribution Practices (GDP)

OUR MISSION:
Be the voice for, inform and serve European chemical distribution
