

The European Chemicals Legislation Finder

The European Chemicals Legislation Finder ([EUCLEF](#)) is an easy-to-use and free-of-charge tool that gives users an overview of EU chemicals legislation relevant to their substances. It allows them to search for chemicals and determine its legal obligations in the vast EU legislative framework. It simplifies the process of understanding legal obligations, ensuring compliance and minimizing regulatory risks. It has a great interest for SME.

Current dissemination on ECHA website:

- [REACH registrations \(ECHA CHEM\)](#)
- [Classification and labelling \(C&L\) inventory](#)
- [Legal obligations](#)
- [Regulatory processes](#)

EUON ([European Observatory for Nanomaterials](#)) on its own website

New ECHA CHEM system:

- [New legislation and tasks](#)
- [Increased quantity and variety of data](#)
- Ambition to improve accessibility to data on chemicals
- Readiness to evolve into EU Common data platform
